

Lely Horizon VAT information

Dear customer,

We ask you to fill in your VAT ID number. If you fill in a valid VAT ID number, there will be 0% VAT added on to your invoice. This is called 'export services, VAT exempt, 0%'. This means that you don't pay VAT to Lely. When you do your UK VAT return, you have to apply the local VAT rules on this purchase of services. For more information, please contact your personal financial advisor.

If you don't fill in a (valid) VAT ID number in the Lely portal, we will show domestic VAT on your invoice. You pay the VAT to Lely, and when you do your VAT return, you apply the local rules for claiming a potential refund of VAT.
